BODY

Platform overview

Item	Status
Pixel office Floor + 18-agent LLM roster (SOUL.md identity)	[DONE]
Workbench rail — orchestrator / Abby / Seat an AI surface	[DONE]
Buzz capture ring — screenshot/record/dictate/meet → context-drop to Abby	[DONE]
Buzz mobile — photo picker + mic-only meet (no getDisplayMedia)	[DONE]
Seat an AI — place Claude/ChatGPT/Cursor/Grok/LM Studio at a desk	[DONE]
Studio Board — Monday-parity agency board + MCP + CRM link	[DONE]
Meridian CRM — contacts/deals/pipeline/portal + member scope / team viewer	[DONE]
Two decision loops — per-agent think + CofounderAgent director	[DONE]
MCP surface — dual gateways, hashed bearer tokens, audit	[DONE]
Discord bot + Spaces + paid tier	[DONE]
Multi-district LimeZu city	[DONE]
SAM.gov federal opportunity feed → RFP → CRM	[DONE]
Bouncer blue-team security + Kali WSL investigation	[DONE]
Coding agent in isolated git worktree with approval gates	[DONE]
Branded dossier generation with honesty pass	[DONE]
Public read-only demo mode	[DONE]
Living-office NPC furniture use + unstuck walk map	[DONE]
Intelligence spine (facts → outcomes → predictions)	[PARTIAL]

Item	Status
Compute mesh — Postgres job queue + credits	[PARTIAL]
Denizen Desktop (Electron)	[BROKEN]
Robinhood read-only market layer	[PARTIAL]
Outcome scoring + team competency map	[PLANNED]

EVIDENCE

Proof (with provenance)

Source: read from commit 1cab797 · 208 test files in tests/

Repo pin: commit `1cab797` · 208 test files in `tests/`

> Past performance entries are operator-maintained in `data/canonical/past-performance.md`.

THE ASK

Proposed next step

Next step: operator review of this draft — no external send until approved.

RESTRAINT

What this document does not claim

- Do not quote the uploaded v1.6.0 PDF numbers — they are superseded by docs/TECHNICAL_DOSSIER.md v1.8.0
- July suite was not green (7 fails); re-run npm test before claiming all tests pass
- Prediction accuracy remains withdrawn pending re-derivation
- Do not claim mobile Buzz does screen-share capture — phones use photo picker + mic-only meet
- Do not claim VisionClaw/Android as a first-class Denizen client without re-auditing
- Do not cite revenue, fundraising or customer-count figures without operator input
- GitHub About description must be updated in the repo settings UI (API token cannot PATCH it)

APPENDICES
